

BETTER MAN IN ME (Feb 28 - original version)

(V1)

You said black and I said white
You said retreat I stayed to fight
Now I'm sleeping all alone
And this bed is getting cold

You got the kids you got the van
At home praying for a better man
Your mamma said I told you so
But there's something she don't know

There's a better man inside me
Just waiting to be unleashed

(CHORUS)

Come and set free
This man who's stuck inside of me
He needs a little pushin'
And a whole lot of lovin'
He's so prideful
And so dang stubborn
Come and let him out
Girl never doubt
I need, I love you, and I really wanna be
The better man in me
Do you still believe

(V2)

I said green and you stayed red
Now we're in debt over our head
Clothes on the lawn keys in the truck
Front door's locked I'm out of luck

But there's a better man inside me
Just waiting to be unleashed
